REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claimed invention is deemed allowable in view of the applicant's arguments filed February 6, 2004 since the prior art fails to teach a process or product wherein at least one of the work pieces has been modified with high energy radiation in order to lower the glass transition temperature and subsequently the pieces are heat bonded with a temperature above the glass transition temperature of the modified areas and below the glass transition temperature of the unmodified areas. The 35 USC 102 rejection in the office action dated October 7, 2003 has been withdrawn for the reasons indicated above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
